

More IT Challenges. Fewer IT resources.

Think Cloud

Schools and districts face the growing challenge of providing safe Internet access while protecting network infrastructures and data resources. Unfortunately, limited budgets aren't helping matters. Fortunately, there are solutions.

Barracuda Networks cloud services are designed to do more with less. Provide best-of-breed Web, email and data security, and accommodate limited budgets and resources. Of course, cloud computing also helps support "green" IT initiatives.

Barracuda Web Security Flex

Content filtering and malware protection.

Barracuda Email Security Service

Spam, virus and data leak prevention.

Barracuda Backup Service

De-duplication, storage and data recovery.

*Powerful, affordable and easy-to-use
Web 2.0 safety and security solutions.*
